Cardea Fleet

INTELLIGENCE. MOBILITY. OPERATIONS.

Capability Statement | DRAFT - final approved version pending

Company overview

Fleet services and operational support for autonomous, electric and commercial fleets.
Launch market: Saint Louis Metro Area. Midwest markets planned (not yet active service areas).

Core services

Vehicle turnaround
Cleaning and readiness resets to the client's approved standard

Visual readiness checks
Documented observations of visible condition only (not mechanical inspection)

Maintenance coordination
Scheduling with authorized repair and service providers

EV charging coordination
Charging schedules and exception follow-up

Fleet operations support
Recurring readiness programs and overflow capacity

Reporting
Completion records and exception reports

Fleet segments

Autonomous mobility | EV fleets | Shuttle & campus | Rental & leasing | Commercial transportation

Operating approach

- Approved written scope and SOP before work begins
- Standardized processes and checklists across sites
- Documented completion with photos and time stamps
- Centralized coordination and exception escalation
